Preamble:-

This course's primary goal is to close the knowledge gap between the hydrocarbons and reactions that students studied in FYBSc (Sem-I) and the aromatic hydrocarbons that they would study in SYBSc Chemistry class (Sem-III). Understanding the preparation of molecules, types of bonds, structural effect, and hybridization of aliphatic and aromatic hydrocarbons is essential. Understanding the many terminologies used in the class is crucial. Organic chemistry is not included in FYBSc Sem-II-curriculum and during the COVID 19 epidemic, many students would not have understood the subject because of issues with online learning. As a result, the bridge course is created in a way that it can be included in the FYBSc and SYBSc Organic Chemistry curricula. The Bridge course's objectives include giving students enough time to adjust to the challenging core of the degree course. It serves as a buffer for the students.

Objectives:-

- To give students a solid foundation in the fundamentals of organic chemistry, so they will not encounter any problems once SYBSc Chemistry lessons start.
- To bridge the gap between aliphatic hydrocarbon reactions studied at Sem I and aromatic hydrocarbon they would be studying in Sem V.
- This course offers a better transition period for students to get ready before the start of the Third Semester courses and serves as a buffer for those who are preparing for tests like the JAM.
- Students that participate in interactive and active learning will be prepared for their UG course with knowledge and confidence.
- It is a course conduct by framing its own syllabus from the session 2021-22 in the first week of beginning of the class.
- It is an independent Programme of Department of Chemistry for admitted SYBSc Chemistry students. The reason is to construct such bridge courses as per our observation that students have virtually stopped studying after pandemic & it's a long gap in studies.
- To full fill this gap, our department conducts such bridge course for newly admitted students before the commencement of S.Y.B.Sc. classes.
- On the last day of bridge course each lecturer made aware the students about subject programme outcomes to prepare them for new challenges.

Duration- 6 days in first week of Sem-III

Time- Monday to Saturday

Sub: Report of A Certificate Course in Spoken English

Dear Sir,

It gives me great pleasure to report the details of A Certificate Course in Spoken English for the academic year 2021-2022 held in our college during the month of March 2021. The Department of English has conducted a meeting regarding the course and formed the syllabus to meet the needs of the market and academia. The need of the students from rural areas is proficiency in English language. Through this certificate course, it is an effort to give enough exposure to the students. The course has a limitation of 20 students only. The students who responded to the announcement of the course and approached the concerned people have been selected for the course. The participated students were benefited by the training and exposure made available in the course which added to their personality. Time-table, the syllabus and the attendance are enclosed herewith.

The department of English thanks you for granting us to hold the course and encouraging the students and teachers.

Thanking you,

Yours truly

Semester-I Early India: From Prehistory to the Age of the Mauryas

Objectives:

The history of Early India is a crucial part of Indian history. It is a base for understanding the entire Indian history. The course is aimed at helping the student to understand the history of early India from the prehistoric times to the age of the Mauryas. It attempts to highlight the factors and forces behind the rise, growth and spread of civilization and the culture of India along with the dynastic history. It also attempts to help the students to understand the contribution of Early Indians to polity, art, literature, philosophy, religion and science and technology. It also aims to foster the spirit of enquiry among the students by studying the major developments in early Indian history.

Marks :- 10

Q.1. Choose the correct answer. (5 Marks)

- (1) The rate constant of a first order reaction depends on
- (a) time (b) temperature
(c) concentration of reactants (d) concentration of products
- (2) The order of the reaction is
- (a) never zero (b) never fraction.
(c) an experimentally determined quantity (d) theoretical quantity
- (3) The substances which get adsorbed on the surface of solid are called
- (a) adsorbents (b) adsorbates
(c) miscelles (d) inner phase.
- (4) Accuracy expresses
- (a) correctness of measurement (b) reproducibility of measurement
(c) Both of these (d) None of these
- (5) Oxidation number is indicative of the extent of
- (a) Reduction (b) Oxidation
(c) Both oxidation and reduction (d) All of these.

Q.2. Answer the following. (5 Marks)

- (1) Define "Molecularity of a reaction".
- (2) Define the term, "Adsorption".
- (3) Define the term, "Error".
- (4) Define the term, "Oxidation".
- (5) Define the term, "Reduction".
